DRIVEWAY PERMIT APPLICATION INSTRUCTIONS

PLEASE READ THIS DOCUMENT
BEFORE FILLING OUT THE PERMIT APPLICATION

Driveway Permits are required for any new, altered or expanded private or commercial driveway, except for a driveway that ingresses or egresses onto a State Road. Permits for driveways on a State Road must be obtained from the local office for PA Department of Transportation.

The applicant shall be fully responsible for any damage done to a township road during the construction of the private driveway.

REQUIREMENTS FOR A COMPLETE SUBMISSION FOR A DRIVEWAY PERMIT:

Application

Complete ALL questions. If a question does not pertain to you, please mark N/A, as not applicable.

The Owner must sign this application.

All applications must be accompanied with a site plan drawn to scale. The drawing must be signed and dated by the Applicant.

Fees

Correct permit fees must accompany the permit application. The application package will not be considered complete or processed by the Zoning Office until all fees are paid. Acceptable forms of payment are Cash or Check. Please make all checks payable to "Lower Nazareth Township".

Worker's Compensation Information

A Worker's Compensation Insurance Certificate is required at the time of application for the contractor performing the work. If the contractor is self-employed, they must sign a notarized affidavit provided by the township.

Site Plan

Please request a copy of your Septic or Grading Plan if you need one.

All recorded easements and right-a-ways must be shown on the site plan.

All driveways must be 10' from the property line and placed outside any easements.

All driveways must have a permanently paved asphalt or concrete surface.

All existing trees over 6" in diameter must be shown on the site plan. All trees to be removed must be indicated on the site plan and will be subject to review by the Zoning Administrator. Those trees not proposed to be removed must be protected from construction vehicles and must be shown on the grading site plan with their protection around the drip lines of the trees.

All proposed utility trenching, including sewer and water lines, electric lines, gas lines, geothermal lines and any proposed wells must be shown on the site plan.

If fill is to be brought to the site to provide for a future base for construction of the driveway for leveling purposes, storage of this fill must be shown on the site plan and it must be clean fill according to PADEP clean fill requirements. All fill must be compacted in lifts according to the Township Engineer.

Required Plan Notes:

If sinkholes are encountered during construction, the owner, contractor, or earthmover must immediately contact the Township Engineer or Zoning Administrator for proper backfill requirements.

Burning or burying of construction demolition waste is prohibited.

No grading of the driveway shall be completed in such a way that soils, rocks, or other debris are left in an unsightly fashion or in a fashion that interferes with the drainage, streets, or utilities. All grading shall be done in such a way to allow surface water to be drained away from the driveway.

Paving of driveway swales with additional asphalt with the intention to eliminate the swale is strictly prohibited.

All swales, including proposed or existing roadside swales that are disturbed, must be lined with matting or sod.

STOP - Call Before You Dig, Pennsylvania One Call System, Inc. 1-800-242-1776.
