- Goal 2: Balance Preservation and Development
- Goal 5: Mitigate the Impacts of Increasing Traffic on Roads and Infrastructure
- Goal 6: Identify the Appropriate Site Locations for Warehouses and Industrial Development

Additionally, the implementation of the coordinated and shared land uses between the three municipalities allows each municipality to comply with the Comprehensive Plan's requirements to update their Zoning Ordinances in a manner that meets the above-listed goals.

SECTION V: ADEQUACY OF ZONING

A. CURRENT STATUS

The current location of agricultural, residential, commercial, and industrial zoning within Lower Nazareth Township, Upper Nazareth Township, and Chapman Borough is generally consistent with the NazCOG Multi-Municipal Comprehensive Plan. It is the position of the Parties that, as of the effective date of this Intermunicipal Agreement, the combined inventory of these uses within these three municipalities is adequate to meet the current and future combined needs of the parties. Exhibit "A" outlines the uses shared between the municipalities.

B. AGREEMENT TO MAINTAIN ADEQUACY

The Parties agree to maintain a combined inventory of agricultural, residential, commercial, and industrial uses within the three municipalities adequate to meet the current and future combined needs of the three municipalities, remain generally consistent with the Multi-Municipal Comprehensive Plan and the Municipalities Planning Code.

If any Party accepts a request for study or otherwise proposes an amendment in the municipal inventory of the zoning districts for any agricultural, residential, commercial, or industrial uses, the Party shall notify the other Parties and the LVPC in writing of the request. A review by municipal staff from each municipality shall be conducted of the proposed reduction(s) and any updates to the appendices shall be provided to the Parties, including a recommendation as to whether the proposed revised inventory of uses within the three municipalities will be adequate to meet the current and future combined needs of the Parties. The Party considering the amendment shall not proceed with consideration of the proposed amendment until LVPC and

the other Parties have responded or 45 days have passed from the date of the notice to the LVPC and the other Parties.

If the governing bodies of the three municipalities find that the combined zoning district inventory will be adequate to meet the current and future combined needs of the Parties, the Party considering the proposed change may proceed to approve or disapprove the amendment on its own merits. If the change is approved, an updated Exhibit "A" shall be adopted by each Party by Resolution and incorporated as part of this Agreement.

If the governing body of any Party determines that the change will mean that the combined zoning district inventory will not be adequate to meet the current and future combined needs of the Parties, then the Party considering the amendment will either (1) deny the proposed amendment, (2) refer the issue to dispute resolution as provided in Section XII of this Agreement, or (3) initiate termination of this Agreement as provided in Section XIII. The Parties may also, by mutual written consent, agree on a case-by-case basis that a de minimis amendment does not require the formal process otherwise provided in this Section VII-B.

SECTION VI: ADDING OTHER MUNICIPALITIES AS PARTIES TO THE AGREEMENT

Nazareth Area Council of Governments member municipalities not party to this Agreement may be provided an opportunity to join this Intermunicipal Cooperative Zoning Implementation Agreement if planning and zoning details and general consistency are demonstrated. In the event any municipality chooses to join this Agreement, provided the current Parties' consent, a new Agreement will be prepared and adopted by the Parties.

In the event the Parties consider entering into an Agreement with another municipality in the provision of zoning, then the provisions of VII-B (Agreement to Maintain Adequacy) shall be followed.

SECTION VII: ADMINISTRATION AND ENFORCEMENT

This Intermunicipal Agreement is an extension of the municipal authority to adopt Zoning Ordinances, districts, and criteria and to enforce said Ordinances, districts, and criteria as authorized by Article VI of the MPC. All zoning interpretations, determinations, and enforcement actions shall be made in accordance with all applicable standards set forth in the controlling municipal Zoning Ordinances and the MPC.

The authority for interpretation, administration, and enforcement of the Zoning Ordinance shall remain with each individual municipality.

In the event of a challenge to the validity of this Agreement, the costs of litigation shall be equally shared by all Parties.

SECTION VIII: TERM AND EFFECTIVE DATE

The effective date of this Agreement shall be the date of the last signature of approval from the governing body of a Party to the Agreement. If any Party wishes to terminate this Agreement, it shall provide the other Parties six months' notice in writing of its intent to withdraw prior to effective termination to give the other Parties an opportunity to make necessary amendments to their respective Zoning Ordinances to bring them into compliance with the Pennsylvania Municipalities Planning Code.
